

AFFIRMATION

The Applicant states that the Reports submitted in the application for Preliminary Development Plan approval pertaining to Posey Solar, LLC (the "Project") remain true and correct as to the current application for Final Development Plan approval ("Final Application") and there has been no change in the Project design that would require the Applicant to resubmit the Project for coordination with applicable entities, except as noted as follows: the Project downsizing resulted in an internal review of the Visual Impact Evaluation Report, Noise Evaluation Report and Natural Resources Impact Report, with the following results:

Noise Evaluation Report: An addendum to the Noise Evaluation Report was prepared, updating the predictive noise modeling to reflect the Project downsizing and minor equipment relocations. The modeling results confirmed that the Project remained compliant with the Development Standard as defined in Section 153.126.02, Paragraph F of the Unincorporated Posey County Solar and Wind Ordinance.

Visual Impact Report: A memorandum was prepared by the consultant indicating that the findings and recommendations of the Visual Impact Report dated June 21, 2021, remain true for the downsized Project.

Natural Resources Impact Report: A memorandum was prepared by Tetra Tech after it re-evaluated the Project's potential natural resource impacts based on the downsized Site Plan. The memorandum summarizes the revised resource impact evaluation and finds that the downsized Project resulted in a reduction of impacts to all natural resources.
